

DESCRIPTION

Pencil case made of RPET material with matching zip, it is a practical and sustainable option to organize and transport your personal items. The RPET material, which comes from recycled plastic bottles, is an eco-friendly alternative that contributes to reducing waste and caring for the environment. The pencil case has a matching zip that ensures a secure closure and easy access to its contents. The zip slides smoothly without getting stuck, providing comfort in daily use. With its spacious and functional design, this pencil case allows you to store and organize your pens, pencils, erasers, clips or other small objects that you need to take with you. Whether at school, at the office or on your travels, this pencil case will help you keep your objects tidy and protected. In addition to its functionality, the pencil case made of RPET with matching zip also reflects your commitment to caring for the environment. By choosing a product made from recycled materials, you are actively contributing to the reduction of plastic waste and the promotion of more sustainable practices.
