

TESLAR KO1190

DESCRIPTION

The car-shaped keychain made of bamboo with a metal finish is a charming and sustainable accessory to carry your keys in style. The shape of the car adds a fun and distinctive touch, ideal for vehicle lovers. The bamboo used in its manufacture is a natural and renewable material, known for its resistance. The combination of bamboo with the metal finish gives it an elegant and durable look. The car-shaped keychain is not only visually appealing, but also functional. The metal ring allows you to hook your keys on securely, preventing them from getting lost. Its compact size makes it practical and easy to carry in your pocket, purse or hooked on the belt loop of your trousers.
