

# PATRIK MO1236

## DESCRIPTION

The RPET 300D executive backpack in recycled polyester with a vigore design is the perfect choice for professionals looking to combine style, functionality and sustainability. Made from recycled materials, this backpack is an environmentally conscious choice. The body and main inner pocket are padded to provide optimal protection for your 13" laptop or tablet, keeping them safe and shock-free while on the go. In addition, it has a triple compartment and side pockets to help you keep your belongings organized and within reach. Padded handles and back provide all-day comfort, even when carrying heavy loads. The trolley strap gives you the option of attaching the backpack to your wheeled suitcase, making it easier to get around airports and stations. In addition to being functional and sustainable, this backpack stands out for its vigore design, which gives it a modern and attractive look. Whether it's commuting to work, travelling, or attending business meetings, this backpack gives you style, comfort, and the peace of mind of knowing you're making an environmentally responsible choice. Opt for the RPET 300D recycled polyester business backpack with a vigore design and wear your belongings in style while contributing to the protection of the planet.
