

SONA PM1140

DESCRIPTION

The document holder made of recycled felt with a vigore design is the perfect option to keep your documents organized and protected. Made with recycled felt, this document holder is a sustainable choice that contributes to reducing waste and caring for the environment. The vigore design provides a modern and attractive touch to the document holder, making it stand out. It has a large zippered compartment that allows you to store and transport your documents safely. Whether it's files, important papers or even a small tablet, this document holder has enough space to keep your belongings tidy and protected. The recycled felt used in this document holder is durable and tough, providing additional protection for your documents against bumps and scratches. With the document holder made of recycled felt with a vigore design, you can carry your documents safely manner while being environmentally conscious. Choose a sustainable and stylish option to organize your documents with this recycled felt document holder.
