

DESCRIPTION

The presentation box designed for mugs is an ideal solution for safely packaging and displaying your personalised or gift mugs. It is made of recycled corrugated cardboard, which makes it a sustainable and environmentally friendly option. The measures of the box are 12x10.6x9 cm, which makes it a suitable size to accommodate a standard mug. The corrugated structure of the cardboard provides strength and protection to the mugs, preventing possible damage during transport or storage. The box has a specific design for mugs, with a rectangular shape that adapts perfectly to the contour of the mug. In addition, its recycled cardboard finish gives it a rustic and natural look, adding a special touch to the presentation of your mugs. You can use it to display your mugs at shops, fairs or events, or simply as a fancy way to present your mugs when delivering them as gifts. Made from recycled cardboard, the presentation box also conveys a message of sustainability and ecological awareness. It is an ideal choice for those looking to reduce their environmental impact and promote the use of recycled materials.
