

DESCRIPTION

The RPET recycled polyester RFID card holder in vigore design is an elegant and sustainable option to keep your cards organized. Made of recycled RPET polyester, this card holder contributes to reducing waste and taking care of the environment. With its vigore design, the card holder adds a modern and sophisticated touch to your style. It has three card compartments, which allow you to carry your credit, debit, ID and any other cards you need to have on hand. In addition, the compact and lightweight design of the cardholder makes it perfect for carrying in your pocket or bag without taking up too much space. With this RPET recycled polyester cardholder, you can keep your cards organized in a practical and environmentally conscious way. Choose a sustainable and stylish option with the RPET recycled polyester cardholder in a vigore design.
