

KODIAK UM1163

DESCRIPTION

An umbrella made of RPET (recycled polyester) with 190T pongee fabric and a natural wood handle is an elegant and sustainable option to protect you from the rain. The pongee 190T fabric is durable and water-repellent, providing good protection against the rain. The natural wooden handle gives a touch of style and warmth to the umbrella, providing a natural and comfortable feeling when holding it. In addition, the umbrella has an automatic opening button for easy use and a Velcro closure for safe storage. Includes a matching cover to store the umbrella when not in use, keeping it protected and tidy. Being made of RPET, this umbrella contributes to the reduction of waste by using recycled materials in its manufacture.
